

## CREA Summer Camp 2018

The Cathance River Education Alliance - CREA camp registration is open for this summer. CREA is a non-profit organization founded in 2000, dedicated to using the resources of the Cathance River Preserve to connect people with nature. Over the years, campers and their families have enhanced their ties with nature through active learning on the Cathance River Preserve. Be part of this vibrant experience!

CREA's summer day camp helps foster your child's natural curiosity in both the sciences and the arts. Guided explorations at the river, pond, and forest, as well as creative art projects, create an exciting week of hands-on discovery on this 235-acre nature preserve.

The Cathance River Preserve is located in the Highland Green village, off the route 196 Coastal Connector bypass in Topsham.
